7 Grants Funded Through TEDCO's Agriculture and Rural Rebuild Challenge

Encouraging purposeful collaboration between rural businesses, research institutions and industry partners

This challenge was created for applicants across the state to collaborate with either a research institution, industry and/or rural agricultural entity to help develop lasting and sustainable, technology-enabled improvements in Agtech and other rural industries. Through a request for applications announced in March 2021, TEDCO received 31 applications from all regions of the State.
